Good morning Gary,

There was one very intentional meeting yesterday with just Carson Paedy and CCT to get him up to speed to head to Ottawa to lead the new integrated planning team which consists of OPP, york, Waterloo, tps and Peel.

As a result what may transpire in sarnia we had another quick call with WR / hsd and FSB and hoped to have intel but nothing at that point except the email we received from plt in west.

Dana Early leading the plan and plt information was discussed and region was following up directly.

It was not intentional that PLT not included and honestly hope plt can sway them away from what they are planning, however it is not our intention as I advised in an email we do not negotiate closing highways. I know dana has them engaged and planning.

Want you to know no one said " dont invite IPB" The discussion was around MTO, resource needs, tow trucks , etc....that was the nature of the call.

I will always ensure you and or Marcel and invited and perhaps a reach out to Dana to WR to determine if anything more needed from IPB?

Thanks for letting me know how this appeared.

R

Good morning Deputy (early morning hockey practice :))

I realize the Ottawa event and subsequent protests throughout Ontario have been dynamic the past little while requiring some quick decision making.

On Sat, Sun and Mon IPB seemed to be very engaged at the Command level as well as during secondary meetings as PLT has a significant role to play. However, yesterday IPB's inclusion in the Command discussions came to a full stop?

We still have a significant footprint and positive relationships on the ground in Ottawa. Our PLT folks continue to reach out for direction which we're unable to provide. Greater situational awareness will position us better to align our actions with the intended end result.

For your consideration,

Gary
